- Method of preparation:** Take sun-dried powdered form of each herb used for decoction. Boil herbs used for making kwath (decoction) in a suitable quantity of water until 1/4th of liquid remains in vessel. Filter decoction and keep it aside. Boil this mixture along with coconut oil until water part evaporates and only oil remains behind. Cool it down and preserve it. Oil is ready for use.
- Benefits on skin:** Enhances skin tone and glow, Reduces pigmentation, acne, sun tan, dark spots and marks, Cures insect bites, itching, dryness, nappy rash, prickly heat and other skin allergies.
- Dosage recommended for effective delivery of benefits:** Apply and massage sufficient quantity on required area and wash off after 30 minutes or as directed by physician.
- Shelf life:** Three years from the date of manufacture
- Storage condition:** Keep out of sight & reach of children. Store in cool, dry place, away from direct sunlight
- Packing information:** 5 ltr & 10 Ltr
